

OEA Members-

Good afternoon!

A zoom meeting was held between the district and the OEA around the solutions that we proposed last week to the concerns we had around the timeline for Professional Development at the end of the schoolyear. OEA is very pleased with the outcome of these discussions.

The district has requested that the specific details to the PD come from them. They are currently working on getting something sent out hopefully tomorrow, but for sure by Wednesday. I explained that I would send out a message to the membership, but the details will come from the district. Please watch carefully for the district email and read it carefully when it arrives in your [OPS mailbox](#). The OEA emails will continue to come to your home email.

OEA has continued to advocate for our members during this time and we were heard by the district, again very pleased with the solution.

**Robert
OEA President**
