

Negotiations 11/12/2020

Colleagues,

OEA and OPS started our negotiations last night. The point of this session was for the OEA and the district to ask and answer questions about each side's proposals in order to understand intent and rationale behind each proposal. Some proposals are not discussed during this session because they either do not need clarifications or they will be revisited at a later date. These are first round proposals and may be updated, edited, and changed throughout the negotiations process, and additional proposals may be added.

Be well,
