

Colleagues-

Bringing to your attention a few things...

- With the recent action of expanding the age group to receive the vaccination to those who are 65 or older, OEA encourages those staff members who fit within the category to take advantage of it. Get signed up to get the vaccine, [CLICK HERE](#).
- We have not heard when educators will receive the vaccine, but when we do receive the official word from the district, we will let you know.
  - There was an email campaign to reach our Mayor and Dr. Adi Pour. See the constant contact from Friday.
- You may have received “canned” responses for the Mayor Stothert and Dr. Pour stating that the Governor controls when individuals are given the vaccine. Both the Mayor and Dr. Pour can put pressure on the Governor. We will now turn our focus to the Governor and our state Senators. [CLICK HERE](#) to email the Governor. To email your state senator [CLICK HERE](#). Snap a selfie of you and your correspondence and post it on the OEA Facebook page.
- Sign up **Infinite Info Nite on Infinite Campus**. It will take place on Thursday, February 4<sup>th</sup> via ZOOM. This event is a result of feedback from our members that staff are oftentimes left to navigate IC on their own with minimal training or guidance from the district. Contact the OEA Office if you are interested. We are still looking for a few more individuals to assist with presenting in smaller break out rooms. Let us know if you are willing to assist. This session is available to NON-members as well, so encourage any staff members who are interested to attend.

Continuing the work,

Robert  
OEA President
