

Colleagues-

HAPPY FRIDAY! I will make this very brief.

The OEA is issuing press release that will be sent out this afternoon regarding a call for a remote learning environment for students and staff due to safety concerns. OEA has been fielding many questions and concerns from members. We have asked these questions to OPS and the responses continue to be a concern for a safe return for all. [CLICK HERE](#) to read the press release and our ask to have a remote learning environment as we head back to school in August.

OEA continues to advocate for you each day! Please reach out to me if you have further questions and concerns.

Be well,

Robert
OEA President
