

Late Start Update:

We have received your input regarding plan time during the late start days planned for this year. Many schools are having a shortened schedule for the day, and this means specials are shorter also. This has caused a conflict with the contract regarding plan time.

After discussions with the district, it has been decided to take missing plan time and add it to plan time on November 25th and 26th. That means, if you are losing 20 minutes of plan time each late start day, you would have a total of 80 minutes to be given back to you in November. Professional development on those days would be shortened to allow for the plan time.
